

Environmental Policy Statement

Eliminating or reducing the adverse environmental impacts that our organisation may have on the environment is important to us. Effective environmental management is an integral part of our efforts.

Our main objective is to maximise the environmental efficiency of our buildings and work practice, reducing pollution and avoiding unnecessary costs.

We are committed to continual improvement. We are also committed to meeting or exceeding the requirements of applicable environmental legislation.

To ensure we meet our commitments, we undertake to periodically monitor and review our environmental performance and take corrective action where necessary. We will also ensure that there are sufficient resources and arrangements in place to achieve and maintain appropriate levels of control, communication and competence.

Everyone has a responsibility for our environmental performance. In particular, managers are responsible for the areas under their control and must seek to minimise waste, promote recycling, reduce energy consumption and, where possible, to work with suppliers who themselves have sound environmental policies.

Commitment

Aircover is committed to achieving the highest standards of environmental performance and recognises its corporate responsibility to the environment. Aircover acknowledges that its operations have a direct and indirect environmental impact and aims to minimise that impact and operate in an environmentally responsible manner.

Scope

This statement applies to all premises and activities within the control of Aircover Ltd. Aircover Ltd will develop, implement and continuously review our environmental management system consistent with local operating conditions and legislation.

General Policy

This statement reflects Aircover Limited's intention to provide and maintain an environmentally sustainable management system.

Aircover Limited

Chestnut House, Alconbury Hill, Alconbury Weston, Cambridgeshire. PE28 4JG

T: 01480 890011 E: enquiries@aircover.co.uk

Although the standards established by nation legislation will apply as a minimumm Aircover will always strive to achieve best practice in the local context of each area in which we operate.

Statement of Principles

- 1) Minimise environmental impact and reduce or, where practicable, prevent pollution.
- 2) Manage its operations in ways that are environmentally sustainable and economically feasible, by making efficient and environmentally responsible use of energy and water and exploiting opportunities to maximise efficiency.
- 3) Monitor actively results and audit policies and practices to ensure Aircover meets its policy goals.
- 4) Ensure environmental risks are properly identifies, priorities and managed in an appropriate and timely way.
- 5) Develop an HR policy to raise and maintain awareness amongst staff and promote individual good practice and encourage team participation.
- 6) Recognise the legitimate interest that all its stakeholders, including customers, shareholders and employees have in its environmental performance and communicate openly with Aircover Ltd and to the outside community.
- 7) Establish sound environmental management policies and promote best practice
- 8) Minimise waste production by reduced consumption and develop effective waste management and recycling procedures
- 9) Collaborate with key suppliers to promote environmentallu responsible procurement of goods and services.

It is the duty of all employess to conform to the environmental policy.

The management of Aircover Ltd give their full support to the implementation of these principles.

Russell Caress

Managing Director
